

NUTS & BOLTS

EXTRA EDITION

NOVEMBER 2015

EXTRA - EXTRA - EXTRA

Those of you who attended the VVSC general meeting on November 17th were treated to an excellent presentation on building a successful auto club, by Herb Clark of the Auto Restoration Club of Sun City West (ARC). During the presentation, Herb spoke about several projects that ARC had completed, including the ground-up fabrication and construction of a 1903 Oldsmobile replica. Herb was adamant that such projects were important pieces in the successful creation of their club.

To that extent, please provide a description of your automotive technical capabilities in a return email. And, don't be shy in describing your abilities. If you've done body work, painted cars, changed motor oil, done tune-ups, rebuilt an engine or became proficient in changing wiper blades, we'd like to know. Who knows, we just might start a project of our own!

Thank you in advance for your reply.

On 11/12/2015, Steve Collins joined some 30 plus VVSC club members for a Thursday morning breakfast at George's Café. You may or may not know that Steve, a VVSC member, is running for one of the three RCSC Board positions in the upcoming elections. During breakfast, Steve spoke to the folks in attendance about his interest in and support of our VVSC club. As a VVSC member in good standing, Steve deserves your attention and consideration when placing your vote.

Herb's presentation got several VVSC members to wonder; what kind of automotive talents do our club members possess?

To All Sun City Rec. Card Holders: Please remember to exercise your right to vote!
